In Advance of Day One (4/25)

Read through and become familiar with the “Flightplan Level 1 Activities” and “Flightplan Level 2 Activities” documents, attached to the Pre-Work email.

Identify which level your center is at in terms of data submission. If you are unsure, you may reach out to Erik Friedrichsen (erik.friedrichsen@seattlechildrens.org).

Draft 90-day plans for improving data submission at your center. You will have the chance to talk about your 90-day plans and hear from centers at the same level during the breakout session on Day One, directly following the Outcomes Committee presentation.

In Advance of Day Two (4/26)

The Telemedicine Improvement change package, VpGALS video, and provider teaching tips document can be found here: <https://www.pr-coin.org/telemed-materials>.
