

# PATIENT ADVOCACY TEAM

## WHAT IS PAT

The Patient Advocacy Team, or PAT, is a voice for patients receiving care for juvenile idiopathic arthritis (JIA) at PR-COIN centers. We are working to improve care, create tools for JIA patients, and make connections with others with JIA.

## WHAT IS PR-COIN

Pediatric Rheumatology Care and Outcomes Improvement Network, or PR-COIN, is a group of pediatric rheumatology clinics working together with patients and families to improve care for children with juvenile idiopathic arthritis (JIA).

In regards to understanding what life with chronic illness is like, someone once said, "you don't get it until you get it." As a group, we truly understand the ups and downs of life with arthritis. We 'get it'. ~Makenzie

## JOIN US

If you have an hour a month to volunteer and would like to join PAT, email us at [prcoinpatientgroup@gmail.com](mailto:prcoinpatientgroup@gmail.com) follow us on Instagram @prcoinpatient Or use the QR code for our Linktree

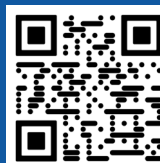

## AM I QUALIFIED?

YES! If you are aged 14-24 and receiving treatment for JIA at a PR-COIN center, you are more than qualified to be part of PAT. Your experience as a patient gives you an exciting opportunity to help improve the outcomes for children with JIA.

Not many people understand what it's like to have JIA, that's why it's so important to get involved and be part of something. I got involved to help others- if I can be part of something to help other patients, then I'm going to what I can to make sure they don't go through what I did. ~Kasey

The PR-COIN Patient Advocacy Team has opened my eyes to all the wonderful things PR-COIN does. I now realize that the initiatives I benefit from, like Treat-to-Target, were created by PR-COIN, and this group has given me many new friends as well. ~Kelsey
